Scientific Advice

Amy Sood

Manager, Scientific Advice

Early CADTH Scientific Advice

Early CADTH Scientific Advice

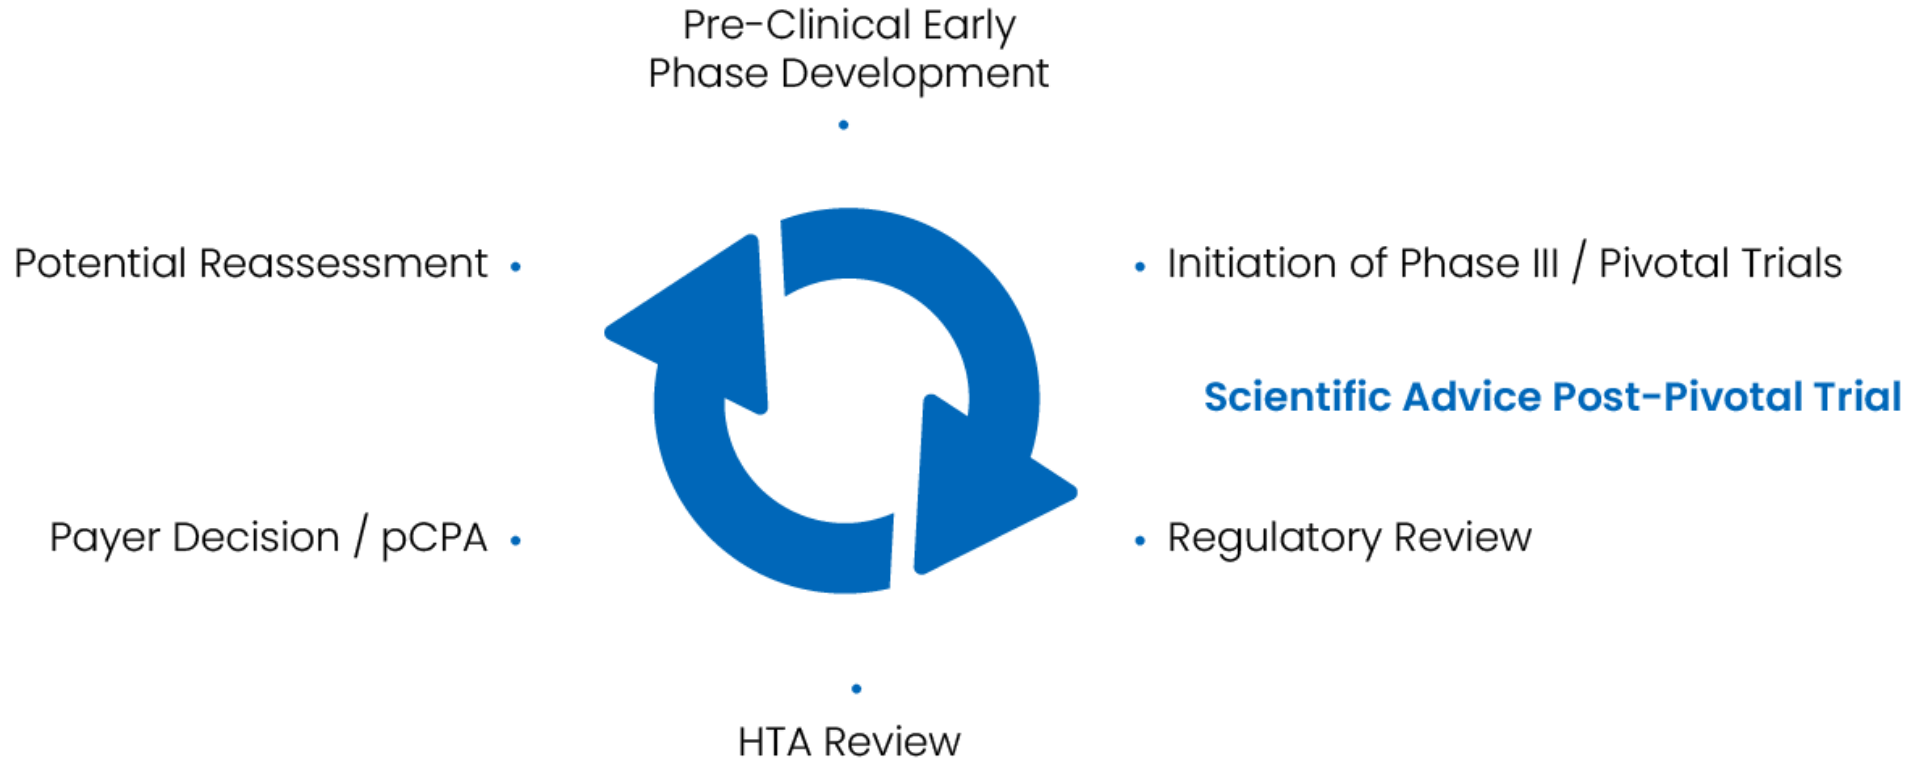

Standard Offerings

- CADTH-only Scientific Advice
- Parallel Scientific Advice in collaboration with
 - **Health Canada** (with INESSS observers)
 - or **NICE (UK)**

Questions regarding **RWE generation plans** are being accepted in the existing processes.

RWE and CADTH Scientific Advice

RWE and CADTH Scientific Advice

Under A Learning Period (Up to March 31, 2023)

- CADTH will consider requests for Scientific Advice **after** pivotal trials have initiated.
- Priority will go to requests for conditions where there are **increased uncertainties** (e.g., rare disease)
- Must include questions related to plans for **RWE generation**
- After the learning period, CADTH will determine whether it will formally offer this service including any criteria for eligibility

We are currently accepting applications for Scientific Advice meetings targeting 2nd half of 2022 and beyond
