

Appendix: Patient Group Conflict of Interest Declaration

To maintain the objectivity and credibility of the CADTH CAR T Reviews, all participants in the review processes must disclose any real, potential, or perceived conflicts of interest. This Patient Group Conflict of Interest Declaration is required for participation. Declarations made do not negate or preclude the use of the patient group input. CADTH may contact your group with further questions, as needed.

1. Did you receive help from outside your patient group to complete this submission? If yes, please detail the help and who provided it.

Yes, the joint submission was prepared by Lymphoma Canada and CLLPAG.

2. Did you receive help from outside your patient group to collect or analyze data used in this submission? If yes, please detail the help and who provided it.

Yes, the joint submission was prepared by Lymphoma Canada and CLLPAG

3. List any companies or organizations that have provided your group with financial payment over the past two years AND who may have direct or indirect interest in the treatment under review.

Company
AbbVie
Janssen
Teva
Roche
Gilead

I hereby certify that I have the authority to disclose all relevant information with respect to any matter involving this patient group with a company, organization, or entity that may place this patient group in a real, potential, or perceived conflict of interest situation.

Name: Elizabeth Lye
